Mobile Waste Bin 80 Lt

Junior

Volume	lt		80
Dead Weight	kg		9
Maximum Load	kg		42
Total Height	cm	A	86,5
Total Width	cm	B	44
Total Depth	cm	C	50
Upper Edge Comb	cm	D	80
Wheel Diameter	cm	E	20

Standard colors

Manufactured using up-to-date production procedures and according to the strict quality requirements of European standard EN 840.

Processed through high-pressure injection moulding, all parts are corrosion-resistant manufactured from solid high-quality galvanized steel guarantees long life expectancy, resistance against chemicals, frost, heat and UV radiation.

Universal design ensure compatibility with all common lifting procedures.

Systematic quality control of the raw materials, manufacturing processes and end products ensure consistent quality in line with ISO 9001 Quality Management Systems.

Specially reinforced rubber profile wheels , suitable for any tipe of terrain.

Standard insertion slots and colors meet all needs for standard recycable material such as glass, paper.

Efficient and cost-effective solutions which fully meet the expectations of all costumers.
